Summary of Responsibilities

The Gateway Development Commission (GDC) is seeking a highly qualified Deputy Chief Financial Officer (Comptroller) to help oversee the organization's financial and accounting functions. Reporting to the Chief Financial Officer, the Deputy Chief Financial Officer (Comptroller) ensures the financial integrity of GDC through the effective management of GDC's financial systems, which includes adherence to internal accounting controls, which they will have the opportunity to develop and build.

Essential Functions

- Establishes accounting policies and procedures for the accurate recording and reporting of payroll, revenue, general expenditures, fixed assets and leases.
- Ensures the accuracy, integrity, and timeliness of GDC's financial information
- Develops, updates, and maintains an integrated financial system for effective accounting and reporting of financial resources.
- Manages the centralized financial accounting and control system of GDC. Manages a comprehensive system of accounts and records in accordance with GDC requirements and in conformance with generally accepted accounting theory and practices (GAAP).
- Functions as an audit liaison with GDC independent accountants, government agencies, and other organizations authorized to review the fiscal affairs of GDC.
- Advises the Chief Financial Officer on accounting policy, revenue and expenditure trends, and accounting directives and proper practices.
- Assists in the statutory Project Management Reporting by providing timely and accurate financial data to PMIS.

Job Requirements

- Bachelor's Degree from an accredited college or university required, with coursework in accounting, finance, business, or related field preferred. Advanced degree in accounting, finance, business administration, or related field highly desirable.
- Minimum of 10 years' experience in progressively responsible senior financial management positions. Experience advising senior executives and interacting with government agencies and officials.
- Knowledge of generally accepted accounting principles and statutory requirements.
- Strong analytical and problem-solving skills. Strong interpersonal skills with demonstrated ability to interact and motivate staff at all levels both internal and external. Proven track record of performing under pressure and resolving conflicts constructively.

## Project Background

The Gateway Program is the most urgent infrastructure program in the country – a comprehensive set of rail investments that will improve commuter and intercity services, add needed resiliency and, in its later stages, create new capacity between Newark, New Jersey and New York City, the busiest section of the Northeast Corridor (NEC). The NEC between Boston, Massachusetts and Washington, D.C. is the nation’s busiest rail corridor, supporting a region that produces 20% of the Gross National Product. The 10-mile segment of the NEC within the scope of the Gateway Program carries over 200,000 daily Amtrak and NJ TRANSIT passenger trips on approximately 450 trains during non-pandemic conditions and is a vital artery in the region.

The first phase of the Gateway Program includes the Hudson Tunnel Project, which includes the construction of a new two-track tunnel under the Hudson River connecting to Penn Station New York as well as the full rehabilitation of the existing 110 year-old North River Tunnel. The project would create operational flexibility, rail network redundancy, and resiliency against future impacts to the Hudson River rail crossing. Environmental review for the project was completed in May 2021.

The Gateway Development Commission, established through bi-state legislation, is responsible for the financing and development of the Hudson Tunnel Project. The Commission is governed by a Board of 7 Commissioners appointed by each of Amtrak, New Jersey and the New York State Department of Transportation, and works in partnership with Amtrak, NJ TRANSIT and the Port Authority of New York and New Jersey.
